

Safety Data Sheet

[Prepared in accordance with EC Regulation 1907/2006(REACH), as amended].

SECTION 1: Identification of the substance/mixture and of the company

1.1. Product identifier

Trade name: **InjectCream**

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses: injection agent, to cut off capillary rising dampness Uses advised

against: not specified.

1.3. Details of the supplier of the safety data sheet

Supplier: **ResinBau Ltd.**

Address: 3 Frezerów Street, 20-209 Lublin, PL.

Phone/Fax: +48 731 904 000

E-mail address of the person responsible for the safety data sheet: info@resinbau.eu

1.4. Emergency phone number

112 (general emergency phone), 998 (fire department), 999 (medical emergency).

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture

Classification according to Regulation 1272/2008 (CLP)

The mixture is not classified as hazardous.

2.2. Signage elements

Labeling according to Regulation (EC) No. 1272/2008 (CLP)

Not applicable

2.3. Other risks

Possible formation of methanol during hydrolysis. Ingestion of methanol is life-threatening. The product does not contain ingredients that meet the PBT or vPvB criteria.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable.

3.2. Mixtures

This mixture does not contain any substances to be listed according to the criteria of Section 3.2 of Annex II of REACH

SECTION 4: First aid measures

4.1. Description of first aid measures

In contact with the skin

Remove contaminated clothing. Wash the exposed parts of the skin thoroughly with soap and water and rinse well. Consult a doctor in case of alarming symptoms.

In contact with the eyes

Rinse with plenty of water. If pain, blinking or persistent redness occurs - contact a doctor.

In case of consumption

Do not induce vomiting. Rinse out mouth with water. Contact a doctor, show packaging or label.

Safety Data Sheet

[Prepared in accordance with EC Regulation 1907/2006(REACH), as amended].

After inhalation exposure

Not expected to pose a significant inhalation hazard under normal conditions. Remove the person to fresh air and provide comfortable breathing conditions.

4.2. Most important acute and delayed symptoms and effects of exposure

No data available.

4.3. Indication of any immediate medical attention and special treatment of the victim

No data available.

SECTION 5: Fire fighting measures

5.1. Extinguishing agents

Suitable extinguishing media: foam, dry powder, carbon dioxide, water spray, sand Unsuitable extinguishing media: no data available

5.2. Special hazards associated with the substance or mixture

In a dry state - flammable.

5.3. Information for the fire department

Wear respiratory protection device regardless of ambient air. Do not stay in a fire-prone area without proper chemical-resistant clothing and a breathing apparatus with independent air circulation. Collect used fire extinguishing agents. Avoid release of extinguishing waters into the environment.

SECTION 6: Handling of unintentional releases into the environment

6.1. Personal precautions, protective equipment and emergency procedures

Wear protective clothing. Move unprotected people to a safe place. People should leave the danger area and stay in an airy place. Keep sources of ignition at a safe distance.

6.2. Environmental precautions

Do not allow the product to enter the sewage system, surface water and soil. If larger amounts of product are released, take steps to prevent spreading into the environment. Notify the appropriate emergency services.

6.3. Methods and materials for preventing the spread of contamination and for the removal of contamination

Collect with absorbent material. Eliminate waste in accordance with the chemical waste law.

6.4. References to other sections

Handling of product waste - see section 13 of the card. Personal protective equipment - see section 8 of the card.

SECTION 7: Handling and storage of substances and mixtures

7.1. Precautions for safe handling

Ensure good ventilation/exhaustion in the workplace.

Advice for fire and explosion protection: The product may release methanol. Wash hands with soap and water before eating.

7.2. Conditions for safe storage, including information on any incompatibilities

Store in well-closed containers in a cool and dry place. Recommended storage

temperature: 5-30 °C

Avoid subzero temperatures to avoid freezing.

7.3. Specific end use(s)

No information on uses other than those specified in subsection 1.2.

Safety Data Sheet

[Prepared in accordance with EC Regulation 1907/2006(REACH), as amended].

SECTION 8: Exposure controls/personal protective equipment

8.1. Control parameters

No data available

8.2. Exposure control

Relevant technical control measures

Keep away from foodstuffs drinks and feed. Remove soiled, saturated clothing immediately. Wash hands before break and before end of work. Avoid contact with eyes and skin. Do not inhale gases / vapors / aerosols.

Personal protective equipment

Hand protection

Use protective gloves resistant to chemical agents according to EN 374.

Body protection

Wear protective clothing in accordance with EN ISO 13688. Wear protective footwear in accordance with EN 20345.

Eye protection

Use safety glasses that comply with EN 166.

Respiratory protection

Respiratory protection only in case of aerosol or mist formation.

Thermal hazards Not

applicable

Environmental exposure control

Prevent direct release into d r a i n s / s u r f a c e water. Do not pollute surface water and drainage ditches with chemicals or used packaging.

Uncontrolled release to surface water should be reported to the appropriate

To authorities in accordance with national and local regulations. Dispose of as chemical waste in accordance with national and local regulations.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

State of aggregation:	Liquid
Color:	white
Fragrance:	delicate
Melting point/freezing point:	not determined
Boiling point or initial temperature	
Boiling point and boiling range:	not determined
Flammability of materials:	not applicable
Boiling point:	100 °C
Flash point	> 64 °C
Auto-ignition temperature	> 95 °C
Decomposition temperature:	not determined
Relative density:	0.9 g/cm ³
Evaporation rate:	no data available
Solubility:	soluble in waterPartition
coefficient n-octanol/water:	no data availableDynamic
viscosity at 20°C	no data available
Kinetic viscosity:	no data available

Safety Data Sheet

[Prepared in accordance with EC Regulation 1907/2006(REACH), as amended].

9.2. Other information

No data available

SECTION 10: Stability and reactivity

10.1. Reactivity

Hydrolysis. None under normal conditions.

10.2. Chemical stability

Ethanol may be formed during hydrolysis. Stable under normal conditions

10.3. Potential for hazardous reactions

See section 10.1

10.4. Conditions to avoid

Extremely high or low temperatures.

10.5. Incompatible materials

Strong acids.

10.6. Hazardous decomposition products

Ethanol.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No. 1272/2008

Acute toxicity (oral)

Not classified

Acute toxicity (dermal)

Not classified

Acute toxicity (inhalation)

Not classified

Skin corrosion/irritation Not

classified

Serious eye damage/eye irritation Not classified

Respiratory or skin sensitization Not classified

Mutagenic effect on germ cells Not classified

Carcinogenic effects

Not classified

Reproductive toxicity Not

classified

Toxic effects on target organs - single exposure Not classified

Toxic effects on target organs - repeated exposure Not classified

Aspiration hazard Not classified

Safety Data Sheet

[Prepared in accordance with EC Regulation 1907/2006(REACH), as amended].

11.2. Information on other risks

No other risks are known.

SECTION 12: Ecological information

12.1. Toxicity

In water, the material is soluble.

12.2. Persistence and degradability

It does not readily decompose in water.

12.3. Bioaccumulative potential

No further relevant data available.

12.4. Mobility in soil

No further relevant data available.

12.5. Results of PBT and vPvB assessment

The components of the product do not meet the PBT or vPvB criteria.

12.6. Other harmful effects

No further relevant data available.

SECTION 13: Waste treatment

13.1. Waste disposal methods

Product recommendations

Must not be treated together with household waste. Do not allow to enter the sewage system. Subject to special waste regulations, must be transported to a suitable special waste incineration facility

Recommendations for used packaging

Contaminated packaging should be thoroughly emptied. After proper cleaning, they can be recycled. If recycling is not possible, it should be disposed of in accordance with local regulations.

Recommended cleaning agent: Water, with detergent if necessary.

SECTION 14: Transport information

14.1. UN number or ID number

Not applicable, the product is not dangerous during transportation.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

Not applicable.

14.4. Packaging group

Not applicable.

14.5. Threats to the environment

Not applicable.

14.6. Special precautions for users

Not applicable.

14.7. Transport in bulk according to MARPOL Annex II and the IBC Code

Not applicable.

Safety Data Sheet

[Prepared in accordance with EC Regulation 1907/2006(REACH), as amended].

SECTION 15:Regulatory information

15.1. Safety, health and environmental regulations specific to the substance or mixture

Does not contain substances on the REACH list with restrictions in Annex XVII. Does not contain substances on the REACH candidate list.

Does not contain substances on the REACH Annex XIV list.

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of December 16, 2008 on classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548 EWG and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Official Journal of the European Union L335/1 of 31.12.2008).

15.2. Chemical safety assessment

A chemical safety assessment has not been conducted.

SECTION 16: Other information

Training

Before working with the product, the user should familiarize himself with health and safety rules for handling chemicals and, in particular, receive appropriate job training.

References to key literature and data sources

The safety data sheet was prepared on the basis of the safety data sheet provided by the manufacturer, literature data, Internet databases (e.g. ECHA, TOXNET, COSING) and the knowledge and experience possessed, taking into account the current legislation.
